

Prepare your computer

A **Windows** or **Mac** computer is required to ensure an optimal experience during your session. Please use a computer running the latest version of that device's operating system, for Windows that is Windows 10 and Mac it is MacOS Catalina.

Cellphones will **not work and tablets can be used, only if necessary, but will restrict functionality.*

Use a compatible web browser

While Google Chrome is our recommended browser of choice, we've provided a [list of compatible browser's](#) based on the type of device you are using.

Test your internet speed

It's required that you have a minimum of 10 Mbps of bandwidth to perform a meet and greet. Test your internet speed here: <https://fast.com/>

**For optimal performance, use a wired, ethernet connection.*

Test your microphone and camera

Click on the following links to test both your camera and your microphone. This will make sure your browser permissions are set correctly.

<https://www.vidyard.com/mic-test/>

<https://www.vidyard.com/cam-test/>

**Apple AirPods are not compatible at this time.*

Join the session

Once you've gotten through these steps you're now set to go ahead and join your session. The event organizer will have provided you or someone on your team a "host link" for any and all meet and greet sessions that you're having.

**If you have any issues with the items listed above please reach out to the Meet & Greet organizer.*

We have detected that your browser is compatible with the Virtual Meet and Greet Platform.

Make sure you configure your camera and microphone before experience and buckle up!

The following browsers are compatible.

Platform	Supported Browsers
macOS	Chrome, Firefox, Safari
Windows	Chrome, Firefox, Edge

Mic Test

Mic Test

Cam Test

Get started, it's as easy as...

- 1 Click the button to grant mic access.
- 2 Make some noise!
- 3 If you see the waveform move – you're good to go.

Grant Mic Access
